4100 ANSI

lumens 3LCD

WXGA

(1280x800)

White

Model: V11HA80080

Manufacturer: EPSON

EAN: 8715946715261

Product Code: 1521659

R44,865

The EB-760Wi is a step up from the EB-760W, with added interactive features.

Interactive technology enables two digital pens to be used simultaneously on the display (finger touch available through optional accessory FT01). Presentations can be controlled and brought to life with on-screen annotations, while a variety of convenient built-in tools support productivity. An optional Epson visualiser camera can be controlled via the display, projecting documents or objects from a desk for everyone to see in incredible HD detail.

The ultra short throw lens allows safe, discreet positioning above the display, enabling presenters free access to interact without casting shadows.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

With a 4,100 lumens laser-light source, combined with 3LCD technology, it produces a large, bright and vibrant display up to 100", visibly clear from all angles and at a distance.

Versatile wired and wireless connectivity options, including screen mirroring via Miracast™, allow participants to effortlessly share content from their PCs or mobile devices.

Unlike a flat-panel display, there is no heavy, breakable, glass panel to create disruptive, reflected blind spots from certain angles, and presenters are not subjected to LCD panel direct blue light radiation, believed to damage eyes.
