Take product photos cheaply and easily

Take them easily yourself: great product images even without any in-depth knowledge of professional product photography - and without any major costs

3-stage colour temperature

From warm white to daylight bright: control the colour temperature in 3 stages using the cable remote control for optimised and even lighting

10-stage light intensity

From radiantly bright to pleasantly dimmed: the light intensity can be adjusted in 10 stages

Economical and durable

LED lights are economical and thus more durable than conventional lamps

6 coloured backgrounds

Always the right mood: the mobile photo studio set for product photography contains 6 backgrounds to ensure the right colour for every scenario, be it classic white, sleek beige or green

Portable photo studio

Photo studio to go: the light box can be packed up extremely small for transport and storage and is a piece of essential equipment for all online traders and photographers who like to be flexible and practical
