The limited special model ESGE-Zauberstab® Petticoat Edition, released to mark the company's 70th anniversary, is not only accompanied by a multi-knife, a cutting disc and a meat and vegetable knife, but also by the large ESGE-Zauberstab® cookbook and magic book with 148 recipes - including vegan ones - for modern ESGE-Zauberstab® cooks.

The ESGE-Zauberbasis®, which is also included in the set, not only offers space for accessories, it can also be used to store the kitchen helper with the spiral cable that can be extended up to 150 centimeters. The robust, durable 180 watt AC motor "Made in Switzerland" delivers 11,500 or 16,000 revolutions per minute via a safety twin switch. Other accessories: The processor with powder disc, which can be used to chop and finely grind even the smallest amounts of spices, herbs, nuts, grains and seeds.

In addition, the anniversary model, which is visually reminiscent of the typical petticoat of the 1950s, comes with a lifetime guarantee.
