R7,713

Share a dual 4K 60Hz workstation between two laptop computers through a USB Type-C connection

Dock and Switch between two laptops to access your workstation peripherals including dual monitors, seamlessly switching between laptop computers with the push of a button. The downloadable Hot-Key software (available for Windows and macOS), enables users to switch between computers using key combinations from a keyboard.

DisplayLink Certified

The Dock is DisplayLink Certified, for Plug and Display compatibility with Windows, ChromeOS, and macOS, enabling operation and switching between multiple computers with different operating systems. DisplayLink technology also supports extended dual displays on base Apple M-Series MacBooks, which are not natively capable of driving more than one external display. The DisplayLink Certification ensures support for resolutions up to 4K 60Hz on both external displays.

Simultaneously Charge Two Laptops

The KVM Dock supports Power Delivery (PD) 3.0 and charges both connected computers over USB-C. The Dock supplies 90W of power to the active host computer and 45W of power to the second PC, ensuring both laptops can charge simultaneously.

Full-Featured Docking Station

Connect two USB-C computers to this Dock to access a wide range of port connectivity, options and features. The Dock features:

• 2x DisplayPort ports for dual display output with support for resolutions up to dual 4K 60Hz.
• 2x USB-A (USB 2.0 480Mbps) HID ports for USB devices, such as a keyboard and mouse.
• 2x USB-A and 1x USB-C (USB 3.2 Gen 2 10Gbps) ports for connecting high speed USB peripherals,
