Adapt to any environment effortlessly by selecting the antenna type that suits your needs. Whether you require long-distance connectivity or need to cover multiple endpoints, easily switch between external omni, internal directional, or custom antenna configurations with just a few clicks in the software.

Auto-Sensing Plug & Play—No Expertise Needed

Automatically detects the attachment and removal of antennas (included) in auto mode and seamlessly switches between the internal and external antennas with zero configuration.

Outdoor-Ready IP66 Weatherproof Design

The EAP725-Outdoor features an IP66 weatherproof rating, ensuring reliable protection against heavy rain, dust, and harsh weather conditions.

Seamless Connectivity with Mesh and Roaming

Ensures customers enjoy uninterrupted streaming when moving around by switching clients automatically to the access points with the optimal signal.

Works with Omada SDN for One-Click Setup

Omada SDN allows users to quickly set up the EAP725-Outdoor through automatic device identification and one-click adoption.

Empowering Businesses with Reliable Omada SDN Solutions

Omada’s Software-Defined Networking (SDN) solution seamlessly integrates access points (APs), managed switches, and gateways, enabling 100% centralized cloud management for a highly scalable network.
