The 128833 USB-C to USB-C cable provides a reliable solution for charging and data synchronization between USB-C enabled devices.

Supporting USB 2.0 data transfer speeds of up to 480 Mbps, this cable is suitable for everyday file syncing, peripheral connections, and basic data tasks. With a longer 0.5-meter length, it offers added flexibility for desk, home, or office setups where extended reach is required.

The cable supports USB Power Delivery up to 60W (20V/3A), enabling stable charging for smartphones, tablets, and compatible USB-C devices. Double shielding, nickel-plated connectors, and a durable PVC jacket help ensure consistent performance and long-term reliability.
