Model: 650131

Manufacturer: EQUIP

EAN: 4015867243954

Product Code: 1525185

R1,725

The 17"-32" Dual Monitor Desk Mount is an efficient and ergonomic solution for users who need a clean and flexible dual-display setup. Designed to support two monitors ranging from 17" to 32", it is compatible with most flat and curved screens that use standard VESA mounting patterns, making it suitable for office, home, and professional work environments.

The dual-arm design allows independent adjustment of each monitor, including height, tilt, swivel, and rotation. This flexibility makes it easy to align both screens at optimal viewing angles, improving comfort and reducing neck and eye strain during extended work sessions. Support for both portrait and landscape orientations adds versatility for multitasking, coding, document comparison, and content creation.
