Tune out the noise, love the fit

Flow through your days with the true wireless earbuds that feel lighter, fit better and sound great. Active noise cancelling lets you listen free from distractions, while textured eartips keep the buds comfortably in place.

Great sound from the everyday buds that fit like a dream

SecureFit textured ear tips bring you a fit that feels lighter and more comfortable, while creating a good seal for even better sound. Features like Dynamic Bass will let you enjoy the full power of your favourite tunes even if listening quietly.

Always hear your music with Active Noise Cancelling

Active noise cancellation reduces external noise so you can focus on your tunes, podcasts and calls. You can turn it on or off via the earbuds or our companion app, and Awareness Mode will let outside sounds back in.

4 mic technology. Clearer calls, even in crowded places

These headphones boast a four-mic setup, and two of those mics plus an AI noise-reduction algorithm combine to bring you super-clear calls. Even if you're in a busy cafe, your voice will come through clearly and the person you're speaking to won't be distracted by what's going on around you.

Bluetooth® multipoint connectivity and easy pairing

Compatibility with the latest Bluetooth® 6.0 devices lets you stream without annoying dips in the sound, and you can connect to two devices at once. Google Fast Pair and Microsoft Swift Pair are supported too.

IPX4 splash and sweat resistant

Never mind the weather, an IPX4 rating means these earbuds are splash resistant so they don't mind a little rain! Wearing them on a particularly hot day? They won't mind a little sweat either.

Pocket-sized charging case with lanyard hole

The small charging case slips easily into a pocket, or you can attach a strap to the lanyard hole and hang the case from your bag or belt loop. Mono mode means you can use either earbud while the other one charges.

Up to 36 hours of play time with the case

With noise cancelling off, you get 8 hours of play time from a full charge and an extra 28 hours from the charging case (with noise cancelling on, you get 6 hours and an extra 21 from the case). For a quick boost, 10 minutes in the case gives you an extra 2 hours. The case can be charged via USB-C.

Philips Headphones app. Customise your experience

Feel like your music's missing something? Our companion app features EQ, an intuitive equalizer that lets you tweak the sound and explore different EQ settings using your fingertips. You can also use the app to activate Dynamic Bass, manage connected devices, update firmware and more.

Warm, natural sound. Philips sound signature

The custom drivers in these headphones are tuned to the Philips sound signature, which brings you warm, natural sound with deep bass. Whatever you're listening to, you'll love what you hear.

GRS-certified recycled plastic. Responsible packaging

We use post-consumer recycled plastics in our products, and our packaging is made from FSC-certified recycled cardboard with inserts printed on recycled paper.
