Model: ESSFCL006910

Manufacturer: DBRAMANTE1928

EAN: 5711428069108

Product Code: 1525356

R1,066

Eco-shield is an unbreakable screen protector made from 100% recycled and recyclable plastic materials without compromising on protection and quality! This easy application screen protector reacts like your phone's own screen and fits perfectly on your device. Incredibly slim at just 0.4mm, you'll hardly notice the ultra-tough layer of protection.

TIRED OF SCREEN PROTECTION THAT BREAKS?

eco-shield's NEW technology delivers recycled, 100% recyclable, zero compromise, earth-friendly 9H sustainable screen protection that doesn't break.

eco-shield is our strongest screen protection ever. Made from recycled materials & 100% recyclable without compromising protection and quality, this easy application screen protector fits perfectly on your device, offering all-around sustainable protection when paired with one of our recycled cases.

GLASS IS PRODUCED BY REMOVING A NATURAL RESOURCE

Did you know that after air and water, sand is our most used natural resource? We even use it more than oil! Taking sand out of the natural environment disrupts the ecosystem, considering microorganisms live on it which feed the base of the food chain.

THE MAJOR ENVIRONMENTAL IMPACT OF GLASS PRODUCTION IS CAUSED BY ATMOSPHERIC EMISSIONS FROM MELTING ACTIVITIES. Tempered Glass is heated to >600 OC / 1112 OF. The combustion of natural gas and the decomposition of raw materials during the melting lead to the emission of CO2.

The complicated production of glass also includes high levels of waste material, and not to mention the huge amounts of water being used for cooling, shaping and cleaning.

SHATTERS EASILY

It is estimated a user will replace the screen protector up to 3 times during the lifetime of their device. Sustainability is all about durability, and all ways of prolonging a product's life cycle is better for the environment than producing a new.
