

InLine USB Smart Control, Multimeter, charge monitoring

Model: 66761

Manufacturer: INLINE

EAN: 4043718267668

Product Code: 1527484

R829

The InLine® USB SmartControl Multimeter combines overheating-, overcurrent- and overvoltage- protection as well as timer and a capacity counter in one device. The following control indicators can be selected one by one at the push of a button:

Overall safety status

Overheating protection

Overcurrent protection

Overvoltage protection

Capacity counter

Previous Charge (displays the mAh of the previous charging process)

In addition, a timer can be set for how long a charging operation shall last and then be terminated automatically. The choice is 2, 4, 6, 8, 10 hours
