Reliable 100W Power Delivery Passthrough

The USB-C multiport adapter uses your USB-C laptop's power adapter and can provide up to 100W Power Delivery (3.0) pass through with up to 85W for your host device for charging. The remaining wattage will power the docking station along with any attached USB-A peripherals such as smartphones and tablets.

Multi-Stream Transport for Driverless Displays

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

The multi-stream transport technology (MST) in this dock powers two DisplayPort monitors with no driver installation required so you are up and running faster.

Enhance Productivity and Device Management with the StarTech.com Connectivity Tools Application

Developed to improve performance and security, StarTech.com Connectivity Tools is the only software suite on the market that works with a wide range of IT connectivity accessories. The software suite includes:

-

Advanced Windows Layout Utility : To setup and save custom windows layouts.

-

Mac Address Pass-Through Utility : To improve network security.

-

USB Event Monitoring Utility : To track and log connected USB devices

-

Wi-Fi Auto Switch Utility : Enabling users to quickly access faster network speeds via wired LAN.
