

Unold Egg cooker Edel

Model: 38626

Manufacturer: ESGE

EAN: 4011689386268

Product Code: 1528504

R1,325

Up to seven eggs can be cooked in the EIERKOCHER Edel in one go. Soft-boiled, medium or hard? No problem, because the required amount of water is filled with the scaled measuring cup. When it is cooked, the signal tone signals: "Done!". Incidentally, the measuring cup also has an egg piercer. The eggs stand securely in the stainless steel cooking bowl. Speaking of stainless steel: the chic, satin-finished housing of the EIERKOCHER Edel is also made of this material. In the stylish mix of black and high-quality stainless steel, it is an eye-catcher for the modern kitchen ambience - and the practical kitchen assistant is also BPA-free! Suitability for everyday use, functionality and convenience are a strong trio with the EIERKOCHER Edel - because all non-electrical parts are also dishwasher-safe.
