RM-WG-T7I rack

accessory

Model: RM-WG-T7I

Manufacturer: RACKMOUNTIT

EAN: 8718868918895

Product Code: 1528742

R3,841

The RM-WG-T7i gives you the ability to mount your WatchGuard desktop appliances in a 19" rack. The rack is tailored specifically for the listed models to guarantee a perfect fit. In addition, the connections are brought to the front for easy access, as well as the console port. The power supply is fixed to prevent an accidental loss of power.

The shielded CAT6 cables and couplers make the RM-WG-T7i applicable in high frequency environments.

Assembly will take about 5 minutes. Simply slide your WatchGuard device in the kit, place the retainers, connect the supplied cables and keystones, and fix the power supply to the rack.
