SOPHISTICATED TECHNOLOGY

Algorithm of Intelligence,

Engineered for Productivity

Diving into the field of audio communication for more than 20 years, Yealink has developed a series of acoustic technology including Smart Noise Filtering, Optimal HD audio and Noise Proof Technology to eliminate all the distracting sounds.

The next-generation technology, powered by solid processing performance, significantly improves the audio quality in collaboration. The exchange of verbal message can be more productive than ever.

Scalable for More Flexibility and Possibility

- BYOD - By simply connecting mobile devices(such as smart phone, personal computer, etc.) to the CP935W through Bluetooth or USB port to realize Hybrid UC meeting (including SIP, mobile phone, PC).

- Wireless microphones - the Bluetooth wireless expansion microphone CPW25 provides 3-meter sound pickup range, which expands the CP935W sound pickup range while still keeping the conference room table clean. (*Coming soon)
