Convenient Phone Charging with the Manhattan Wireless Charging Pad

Charging your compatible phone, case, earbuds, and more is even simpler with the Manhattan Wireless Charging Pad - 5 W. Whether your phone has wireless charging built-in or your phone case supports that technology, a quality wireless charger from Manhattan makes it easy to get power back into your device. With a dedicated charging pad, there's no need to hunt for the right cable. Plus, as long as it isn't made of metal and is fewer than 5 mm (0.2 in.) thick, your phone case won't interfere with charging, so your phone stays protected even while it's on the pad. The Manhattan Wireless Charging Pad - 5 W truly offers a no-hassle way to charge up your phone and other compatible devices.
