Hama Premium UV 390 Nano Ultraviolet (UV) camera filter 62 mm

Model: 00071506

Manufacturer: HAMA

EAN: 4007249715067

Product Code: 1530985

R1,597

- High-end lens protection with additional nano-effect, made from premium UV lens glass for brilliant colours
- NSC18 coating: nine layers on each side, for excellent permeability to light and maximum anti-reflective properties
- Vapour-deposited, multi-layer coating
- Block UV rays up to 390 nm
- Especially clear, sharp pictures with brilliant colours since the unwanted blue colouring of ultra-violet radiation is avoided, reducing haze and preventing blurring
- Nano-coating for the lotus effect: easy to clean, prevents misting and further dirt accretion, water, oil and dirt-repellent
- Scratch and shock-resistant
- Filter front and back are coated, ensuring no loss of contrast or brilliance and preventing ghosting

and double images

- Ultra-thin, wide mount: prevents vignetting, can remain on the lens permanently
- Barely increases the lens front section
- A protected front lens saves expensive repair costs
- Quality class (glass): premium UV lens glass in HD quality
- Filter mount made from black anodised metal and blackened inner edges to prevent reflections
- Edge sealant protects against soiling
- Stable shape of the mount despite temperature fluctuations
