

InLine HDMI cable, HDMI High Speed with Ethernet, male / male, black, 2m

Model: 17502

Manufacturer: INLINE

EAN: 4043718076178

Product Code: 1531483

R804

Optimal price-performance ratio: Cost-efficient alternative with up to **50% savings** compared to premium cables.

Suitable for fixed installations: Ideal for **workplaces, conference rooms or home theaters** where the cable remains permanently installed.

Long-lasting performance: HDMI 2.0 with **4k@60Hz** up to **5m**, from **7.5m 4K@30Hz**.

Flexible & robust: Multi-strand construction ensures resistance to movement.

Impressive **transfer rate** of up to 18 Gb/s.

The new InLine® HDMI cable series with CCS conductor material offers a **cost-efficient alternative** to classic copper cables without compromising on proven quality. Developed for **fixed installations**, these cables are ideal for offices, conference rooms or home theaters, where the cables are installed once and remain there.

The use of **copper clad steel (CCS)** instead of solid copper results in a **significant price saving of approx. 50%** compared to the Premium series. While HDMI 2.0 is fully supported up to a length of **5m**, a maximum resolution of 4K@30Hz is guaranteed from **7.5m**.

Thanks to the **multi-strand structure**, the cable remains flexible and resistant to mechanical stress. Thanks to **overall shielding**, gold-plated HDMI contacts and a twisted pair construction, you experience reliable signal transmission and optimum shielding. With a **PVC jacket and sturdy plug contacts**, the HDMI cable is durable and reliable.

These cables are ideal for **system owners and resellers** who want to offer their customers a cost-effective yet high-performance solution, e.g. for For example, for equipping workstations.

HDMI 2.0b:

This InLine HDMI cable of specification 2.0b supports Ultra High Definition (UHD) and 4K video transmission with up to 60 frames per second up to a length of 5m. This means better picture quality with a wider color palette and a greater contrast range compared to the previous version. This makes this cable particularly suitable for the playback of high-resolution audio and video content with fast movements. The InLine HDMI cable reliably transmits the signal from suitable HDMI sources such as cable or satellite receivers, streaming devices, games consoles, computers and gaming PCs, AV receivers and cameras to suitable HDMI output devices such as 4k projectors, UHD smart TVs and 4k gaming monitors.

Technical specifications:

HDMI version: **2.0 (up to 5m)**

Resolution: **Up to 4K@60Hz (up to 5m), 4K@30Hz (from 7.5m)**

Material: **CCS conductor material, multi-strand construction, 30AWG cores**

Shielding: **Total shielding**

Twisted pair construction for best shielding internally

Sheath: **PVC**

Plug contacts: **Gold-plated**

Length: **0.5m - 10m available**
