Manufacturer: PANZERGLASS

EAN: 5715685003448

Product Code: 1531572

R1,119

Want the ultimate in phone protection? And in privacy? Look no further! This 3-in-1 privacy protection pack from PanzerGlass® features a MagSafe compatible HardCase, a Hoops® camera lens protector with transparent frame, and an Ultra-Wide Fit Privacy Screen Protector that renders the content of your screen virtually invisible to everyone except you. With this pack your phone is safe from scratch-creating bumps, phone-cracking falls, and just about anything else life might throw at you, even prying eyes and curious glances from nosy neighbors.

The back of this HardCase is 100% recycled plastic, while the plastic frame comprises 44% plant-based content. The screen protector is made of 60% recycled material and ultra high higher scratch resistance. And what about the Hoops® Camera Lens Protector? It keeps your camera lenses free from scratches and cracks that would leave permanent scars on all future photos.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The 3-in-1 protection pack prolongs the lifetime of your phone so that one day you can pass it on to someone else who will love it just as much as you do. This is one way of working toward a more sustainable future. Another is to use less packaging and make it more sustainable: In 2024, we reduced the amount of paper in our PanzerGlass® core product packaging design by an average of 66%* and of course this product comes in a recyclable FSC™-certified box.

Installation is also easy. Just mount the screen protector using the enclosed EasyAligner, apply the camera lens protector, and click on the HardCase. To make it even easier, we've included step-by-step instructions as well as a QR code for quick access to our online how-to video. And once everything is installed, you'll never again fear the sight of your phone tumbling to the ground. This may not happen, but if it does, you'll regret not having clicked "add to cart".

*Reduction from 2022-2024 measured by comparing selected products from the PanzerGlass® core range.
