Make metal shelves or cut up plastic pipes with the precise and ergonomic Bosch Hacksaw 300mm. This universal and robust hacksaw has two ergonomic handles with softgrip for optimal control and safe guidance. A fine bi-metal saw blade with 24 TPI makes it ideal for accurate, precise and clean cuts in all types of metal, plastic, wood, composite materials and more. The blade is highly durable thanks to tough sawing teeth with a hardness level of 62-68 HRC. The hacksaw features an easy release mechanism for simple exchange of saw blades. Furthermore, this hacksaw comes with 45° and 90° cutting angles, so it can apply flush as well as free cuts.
