Model: 40325

Manufacturer: LINDY

EAN: 4002888403252

Product Code: 1533358

R1,231

The Lindy DP Port Blockers are useful little devices that can be used to physically prevent access to DP ports. With the DP Port Blocker Key, the user can quickly block any open device ports and easily prevent users from connecting cables, devices or inserting foreign objects without permission.

The semi-permanent DP Port Blocker is made up of a moulded plastic blocking cap that plugs securely into the DP port with a special insertion key. The blocker latches into the port just as a normal DP cable would and remains in place until removed using the insertion key.

Designed to help protect against unauthorised access to IT or AV equipment, as well as preventing

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. unintentional or malicious damage to ports. It can also act as a visual cue, showing inactive or disconnected ports, ideal for use in schools, office or other public sector environments.

To use, simply attach a blocker to the key and insert it into the DP port. Release the sliding mechanism on the key to leave the blocker in place. To remove, simply insert the key back into the blocker and pull away.

Security Note: The Port Blockers will only act as a basic physical & visual deterrent to tampering. It will not prevent a determined attacker, intent on gaining physical access to a DP port.
