Ernitec 0070-24127-HB2000 computer monitor

Model: 0070-24127-HB2000

Manufacturer: ERNITEC

EAN: 5715328125209

Product Code: 1533661

R57,673

Ernitec 27” IP66 Vandalproof Industrial MonitorModel: 0070-24127-HB2000 — High Brightness for indoor & outdoor washdown environments

When your operation doesn’t stop for weather, dust, steam, or daily hose-downs, your monitor can’t either.

The Ernitec 0070-24127-HB2000 is built for the places where ordinary displays fail: harsh production floors, outdoor work zones, and hygiene-critical facilities where cleaning with water is part of the routine.

At its core is a 27” Full HD (1920×1080) IPS panel with a powerful 2000 cd/m² (nits) typical brightness—delivering clear visibility in bright indoor spaces and challenging outdoor light conditions.

Built for washdown, built to lastIP66 sealed protection + vandalproof construction means the monitor is designed for environments with water spray, dust, humidity, and contamination risk—the exact conditions you find in:Sawmills (dust, debris, vibration, changing temperatures)Slaughterhouses & food processing (strict hygiene, frequent washdowns, cold/wet zones)Industrial workshops & heavy

production (oil mist, humidity, airborne particles)

Outdoor logistics & loading areas (sunlight, rain, wind-driven spray)

This is the monitor you choose when the requirement isn’t “nice picture”—it’s reliable performance, day after day, under real-world abuse.High brightness that stays readable washdown monitor is only useful if people can actually read it—fast, from different angles, and without squinting.

2000 nits typical brightness for strong visibility IPS technology for consistent color and clarity across wide viewing angles

Full HD resolution (1920×1080) for sharp camera feeds, dashboards, and control interfaces

Fast 5 ms response time for smooth motion and live video

Designed for 24/7 industrial operation

This monitor is made for continuous environments—security, process monitoring, and production control where downtime is expensive.

Ernitec positions these displays for 24/7 use and industrial reliability. Simple integration for video & monitoring

The 0070-24127-HB2000 is purpose-built for surveillance and industrial monitoring setups, for clean integration into existing video chains. Easy to mount in real installations

Industrial installs need flexibility—walls, posts, machines, enclosures.

The right display where hygiene and harsh climate collide

From wet rooms to dust-heavy production, from freezing zones to heat swings near machinery, this monitor is built to keep information visible and operations moving—without babying the hardware.

If your site needs a display that can handle: water cleaning, dust, humidity, outdoor glare, and extreme temperatures—the Ernitec 0070-24127-HB2000 is made for it.
