Turtle Beach Vulcan II TKL keyboard Gaming USB QWERTY German Black

Model: 00232800

Manufacturer: TURTLE BEACH

EAN: 840454401332

Product Code: 1533804

R2,823

The Turtle Beach Vulcan™ II TKL is a tenkeyless mechanical gaming keyboard that frees up desk space while packing premium gaming performance for the long haul. Featuring TITAN HS hot-swappable pre-lubed switches for easy maintenance, sound dampening foam, and a brushed aluminum top plate, it delivers quiet, precise control. Personalize every key cap to your liking and customize every key with per-key RGB lighting and synched AIMO™ lighting via Swarm™ II while gaming confidently with ReacTap™ SOCD, advanced anti-ghosting and EASY-SHIFT[+]™. The left-side located detachable USB-C cable and onboard profiles make it a keyboard built for the long haul.

Compact Tenkeyless Form Factor

Free up desk space and increase mouse range for competitive FPS and MOBA gameplay with a sleek, portable design.

TITAN HS Mechanical Switches

Pre-lubed and rated for 50M keystrokes, the new TITAN HS (hot-swappable) switches offer smooth linear 1.8mm actuation ideal for rapid in-game responses and typing experience.

Durable Aluminum Top Plate with Iconic Vulcan™ Design

Features a brushed aluminum top plate set on a low-profile housing, T-shaped keycaps, and a stylish, ergonomic layout.

Premium Acoustic Design

Sound dampening foam and upgraded stabilizers provide a satisfying, clean keystroke sound with zero rattle or spring noise for smooth and crisp gaming and typing.

ReacTap™ SOCD Technology

Prioritizes the most recent directional input between two keys to ensure fluid continuous movement, and the quickest, most accurate directional, counter-strafing and picking ability.

Hot-Swappable Switches

With hot-swappable switches never again throw away a keyboard due to missed or double inputs due to mechanical switch oxidation or wear and tear. Compatible with both 3-pin and 5-pin switches, allowing easy maintenance, customization, and upgrades without soldering making the Vulcan™ II TKL ready for years on your desktop.

Third-Party Keycap Compatibility

Supports most 3rd party cross-mount keycap sets, allowing gamers to replace lost caps or personalize the look with custom artisan or themed sets.

Precision Keystrokes

Full Key (NKRO) with 100% Anti-Ghosting ensures every key press registers accurately, even when multiple keys are pressed at once for complete reliability during high-speed or competitive gameplay.

EASY-SHIFT[+]™ + Game Mode

Unlock secondary key functions, disable the Windows key, and remap essential macros or commands for gameplay optimization.

Integrated Volume Wheel with Push-to-Mute

Easily adjust master volume or mute audio instantly, without leaving your game.

Stunning Per-Key RGB Illumination

Customize each key with vibrant 16.8M color RGB lighting and sync effects across AIMO™ compatible Turtle Beach gear using Swarm™ II software.

Detachable USB-C Cable (Left Side Mounted)

Clean up your setup with left-side cable routing. The included detachable braided cable ensures easy transport and reliable performance, or you can replace if worn or to match your PC setup.

Onboard Profile Storage

Save up to five custom profiles directly to the keyboard for lighting, remapping, and macro preferences—no software required.

Advanced Customization with Swarm™ II Software

Enhance your keyboard performance and aesthetics with the Swarm™ II desktop software including AIMO™ & RGB lighting, assign the A.I. launch key to your favorite artificial intelligence app, save profiles and much more.
