R830

The BROCK SPM 3006 S is a compact square sandwich maker designed to prepare 2 square-shaped toasted sandwiches at a time. Its 750 W heating system provides quick and even cooking for sandwiches, toast and hot snacks. The cooking plates feature a non-stick coating for easy food release and convenient cleaning. A built-in thermostat automatically controls the operating temperature, while a thermal fuse provides additional protection against overheating. The appliance also features a cool-touch housing, heat-insulated handle and two indicator lights showing power status and when the required cooking temperature has been reached. Power (W): 750 | Number of sandwiches: 2 | Sandwich shape: Square | Indicator light: Yes | Overheat protection: Yes | Color: Steel | Weight (kg): 1.42
