The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Auto Recycling

Automatically overwrites the oldest recordings when disk storage reaches full capacity

Uninterrupted 24/7 Recording

Experience 24/7 reliability without the storage headache. BNR-008 allows for weeks of continuous, high-definition footage. Whether it's the middle of a busy workday or the dead of night, the NVR provides a seamless and stable recording foundation.

Intelligent Event Recording

The BNR-008 integrates seamlessly with IP cameras, triggering automated recording based on intelligent video analytics.

System Monitoring

The BNR-008 continuously monitors abnormal conditions such as video loss, disk errors, and IP conflicts, and delivers real-time alerts to notify operators as soon as issues arise. This enables rapid troubleshooting and resolution, ensuring smooth, stable, and reliable operation of the surveillance system.
