The front and bottom dust filters prevent dust from entering the system.

Tool-Free Tempered Glass

Easily detachable side panel provides quick access to the internal components

Tool-free tempered glass side panel with a ball stud and socket design for easy installation and removal.

Easy panel installation with groove fixing structure at the bottom of the tempered glass

Optimal Air Ventilation for Powerful Cooling

Three pre-installed 140mm RGB fans at the front and one pre-installed 120mm RGB fan at the rear provide excellent airflow and vibrant RGB lighting.
Optimized airflow efficiently draws in cool air and exhausts hot air for superior cooling.
Supports up to eight fans for powerful cooling

Optimized cable routing with ample space and well-positioned holes for convenient cable management

19mm cable management space with thoughtfully placed cutouts

Excellent Compatibility & Expandability

Spacious interior for easy installation and excellent hardware compatibility.

Liquid cooling support

The S6 BLACK supports a 240mm radiator on the top, allowing users to build a powerful liquid cooling system.

Equipped with high-performance cooling fans
