Dual-Chamber Panoramic View Case

The frameless panel design between the front and the left side provides an open, unobstructed feel. The Wraparound tempered glass flowing from front to side offers a seamless, slit-free view, creating a perfect, immersive display from any angle.

High-strength premium curved tempered glass

Ensures both durability and customization flexibility with premium curved tempered glass.

Sturdy removable tempered glass design

The top-down removable glass keeps the system secure and safe during transport.

Grooved bottom mounting makes glass panel installation quick and stable.

Side intake section for airflow

Side perforations allow for intake fans and PSU ventilation, ensuring smooth airflow.

Mesh design for optimal cooling

Mesh on top, bottom, and sides for intake and exhaust quickly dissipates system heat.
