PC GAMING CONTROLLER GXT 541 MUTA

PC gaming controller with pressure-sensitive triggers and extra-long cable

Precise under pressure

Keep your eye on the ball and your finger on the trigger (literally) – with a pressure-sensitive trigger, the Muta offers precise and accurate control in all your games for an even better gaming experience.

KEY FEATURES

Great 'n' green

Gaming is cool. Looking after the environment is cool. Why not do them together? Made from 75%

recycled materials, the Muta helps you do your bit for the environment whilst you game. Cool.

PC (& laptop) partner

WASD is nice and all, but if you're looking for the real console experience on your PC or laptop, the Muta is here to help – compatible with both, you really can play your way.

Easy does it

Plug your controller in and go – it's as simple as that. And did we mention the cable is an extra-long 3m, so you can game from pretty much anywhere in the room? It feels good to be free.

This one's personal

We reckon you like your controllers like you like your games – with a bit of variety. With 2 interchangeable D-pad covers, you can personalise your Muta in a way that works best for you.

Only good vibes

Experience what your character's feeling from the comfort of your own home with the Muta's realistic adaptable vibration feedback. Let's go to the fourth dimension!
