

Zalman ALPHA2 V2 A36 White 360 mm CPU Liquid Cooler

Model: ALPHA2 V2 A36 WHITE

Manufacturer: ZALMAN

EAN: 8800263651139

Product Code: 1549912

R2,377

The ZALMAN ALPHA2 V2 is a high-performance 240/360 mm AIO liquid CPU cooler designed for powerful cooling, low-noise operation, and vivid system customization. Its distinctive ARGB pump head features a real-time CPU temperature display and a 360° rotatable magnetic cover for flexible installation and optimal viewing. The upgraded 3,300 RPM pump, micro-skived pure copper base, and aluminum radiator provide efficient heat transfer and cooling performance. A 2-in-1 or 3-in-1 single-frame fan design simplifies installation and cable management, while PWM control dynamically adjusts fan speed according to system cooling requirements. The ALPHA2 V2 also supports motherboard ARGB synchronization and includes ZM-STC10 thermal compound for efficient CPU heat transfer. Compatible with Intel LGA1851/1700/1200/115X and AMD AM5/AM4 sockets.
