Supporting up to 180mm CPU Cooler.

Seamless Compatibility, Unmatched Performance

The U691 case supports ATX (BTF), M-ATX, and Mini-ITX motherboards, featuring built-in cable routing holes for effortless back-connect motherboard integration. With space for graphics cards up to 420mm and CPU coolers up to 180mm, it ensures a clean, organized build while delivering an immersive, unrestricted gaming experience.

Superior Airflow & Spacious Capacity

The U691 PC case is designed with mesh panels and dust filters on the bottom and side for enhanced airflow. Its spacious interior accommodates high-performance components and supports up to two high-end graphics cards, ensuring a seamless and powerful build.

ARGB Fan with Speed Display

Featuring vibrant ARGB lighting, an infinity mirror fan, and a digital display for fan speed, this design combines stunning aesthetics with durable dual ball bearing technology for long-lasting performance.

Stunning Lighting Bar

The U691 features a RGB lighting bar that syncs with fans and the motherboard, creating vibrant, dynamic effects. Perfect for gamers and PC enthusiasts, it makes your build stand out.

420mm-long GRAPHICS CARDS

It supports dual graphics cards.

480mm-long RADIATOR

Supporting up to 480mm radiator

Innovative Storage, Organized Space
