InLine SATA Cable for 150 / 300 / 600 S-ATA links with latches 0.5m

Model: 27705A

Manufacturer: INLINE

EAN: 4043718066964

Product Code: 1551806

R767

Secure connection thanks to integrated tab: The security tab ensures a firm hold on the connection and protects against loose contacts or accidental disconnection.
Efficient data transfer with 7 wires: Four data lines and three ground lines guarantee a stable, interference-free connection between the hard drive and the motherboard.
Standard-compliant compatibility: Compatible with all common SATA interfaces – ideal for HDDs, SSDs, and optical drives.
Flexible use for various applications: Suitable for professional cabling in PCs, workstations, and server environments.
High reliability for continuous operation: Particularly suitable for IT environments where a stable connection is essential.

The InLine® SATA connection cables with integrated safety tab combine the highest quality

workmanship with practical functionality. They ensure a secure and stable connection between drives and motherboards – ideal for use in professional environments such as system houses, data centers, or IT service providers. The use of a 7-wire design (4 x data lines, 3 x ground lines) ensures reliable data transmission with optimal shielding.
Thanks to the integrated safety tab, the connectors sit firmly in the socket – a decisive advantage during maintenance work, vibrations or in mobile systems. The standard-compliant design guarantees full compatibility with SATA devices of every generation.
Whether for system integration, custom PC builds, or rollout projects, this SATA connection cable is a professional connecting element that impresses with its quality, reliability, and practicality.

Plugs: 2x SATA 7-pin
Inner conductor: 7 wires (4 x data, 3 x ground)
With safety lock
Compatible with the SATA standard
