

InLine 33382I network card Ethernet 1000 Mbit/s

Model: 33382I

Manufacturer: INLINE

EAN: 4043718351404

Product Code: 1552078

R1,514

USB-C 3-in-1 adapter with Gigabit Ethernet, audio and Power Delivery 3.0

Three functions via a single USB-C port:Adds Gigabit Ethernet, a 3.5 mm headphone jack and USB-C Power Delivery to a compatible device in a compact solution.

Stable Gigabit network connection:The integrated RJ45 port supports 10/100/1000 Mbps and enables a reliable wired network connection.

Audio and microphone combined via TRRS:The 3.5 mm jack supports headsets with a microphone and enables simultaneous audio output and voice input.

Power Delivery 3.0 with up to 100 W pass-through:The connected device can be charged or powered whilst the network and audio are in active use.

Plug-and-play integration:Automatic detection by the operating system without the need for

additional driver installation, ensuring quick set-up.

The InLine® USB-C 3-in-1 adapter expands a single USB-C port to include key interfaces for wired networking, audio and power supply. The combination of RJ45 Gigabit Ethernet, a 3.5 mm TRRS headset jack and USB-C Power Delivery 3.0 enables all functions to operate simultaneously via a single interface.

The RJ45 port supports network speeds of 10 / 100 / 1000 Mb/s and offers a stable alternative to wireless connections. Headsets with combined audio and microphone functions can be connected via the integrated 3.5 mm jack. At the same time, the USB-C port with Power Delivery 3.0 pass-through allows a charging power of up to 100 W at 20 V / 5 A.

The adapter is automatically recognised by the respective operating system and is ready for use without additional drivers. It is suitable for compatible computers, tablets or smartphones with a USB-C port and is intended exclusively for use in dry indoor environments.

Host connection: 1 x USB-C plug with connection cable approx. 15 cm

1 x USB-C socket with Power Delivery 3.0 pass-through

Supported operating systems: macOS/iOS/iPadOS, Windows 7 / 8 / 10 / 11, Linux, Android

Supported hardware: Mobile devices such as laptops, smartphones and tablets with a USB-C port
