Model: 35871

Manufacturer: INLINE

EAN: 4043718260751

Product Code: 1552192

R944

InLine® High Speed USB 2.0 (Universal Serial Bus) extendable cable with high-quality, aluminium-coated connectors. The special spiral shape of the cable is suitable for all applications that require a momentary extension of the cable and an easy insertion and low bulk when not in use. Straight or crooked it does not matter, the reversible Type-C connector can be inserted in any direction. Small, compact and inexpensive: With a width of only 8.4x2.6mm, this connector is ideal for use on smartphones, tablets, external USB hard drives, external USB graphics cards and other peripherals. The special design of this connector allows it to be mounted centrally and flush on a device. Backward compatibility via adapter. According to the manufacturer, the average lifetime of the Typ-C connector is 10,000 mating operations, twice as long as the Typ- A connectors.
