offer flexible adaptation to interiors or corporate design.

The InLine® WiFrame 2 is the smart solution for professional use of digital image and video presentations. With its high-resolution IPS touchscreen (1920x1200) in 16:10 format, the WiFi picture frame is ideal for use in reception areas, sales areas or care facilities. Photos and videos can be sent directly via app and displayed on the device worldwide – an efficient way to communicate in real time. The Frameo app is pre-installed, available in multiple languages and particularly user-friendly. The technical specifications include 1 GB RAM, 16 GB internal flash memory and connection options via USB-C and microSD cards up to 128 GB. The quad-core processor ensures smooth playback, while integrated 2x1 watt speakers provide acoustic support for media content. Thanks to its flexible design with three interchangeable outer frames in different wood finishes, the WiFrame 2 can be easily adapted to any environment. The portrait or landscape format allows for a wide range of usage scenarios.

WiFi picture frame:

CPU: RK3128 quad-core processor with 1.2 GHz

Memory: 1 gigabyte RAM, 16 gigabytes flash

Operating system: Android 6.0

LCD screen: 10.1" IPS panel with touch function

Resolution: 1920x1200

Aspect ratio: 16:10

Contrast: 800:1

Brightness: 250 cd/m²

WiFi: 802.11b/g/n

Inputs: USB-C, card slot for microSD cards with up to 128 GB (FAT32)

Built-in speakers with 2x1 watt

Supported video formats: MP4, 3GP, MOV

Supported image formats: jpeg, jpg, png, heic

Pre-installed Frameo app, multilingual

Power supply: DC 5.0V / 2.0A

Power consumption when switched off: 0.06W

Power consumption in networked standby mode: 1.39W

Dimensions WxHxD: approx. 268x188x33mm (without outer frame), approx. 298x216x41mm (with outer frame)
