InLine 95411 low/medium/high voltage cable Medium voltage cable

Model: 95411

Manufacturer: INLINE

EAN: 4043718342792

Product Code: 1552231

R972

The solar cable H1Z2Z2-K, 4mm², incl. solar plug in a set of two (black/red) has been specially developed for wiring photovoltaic systems and offers maximum reliability and durability. With its robust construction and outstanding technical properties, it ensures that the PV system will operate efficiently and safely for years to come.The H1Z2Z2-K 4mm² solar cable is the optimal choice for safe and efficient cabling of your photovoltaic system. With its high-quality construction and comprehensive protective features, it ensures reliable power transmission and helps to maximise the energy efficiency of your system.

Note on the wire cross-section:

The required wire cross-section depends on the current and the distance or cable length. If in doubt, please consult a solar technician to find out which wire cross-section you need.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
