InLine 16955L power cable Black 5 m IEC C13 CEE7/7

Model: 16955L

Manufacturer: INLINE

EAN: 4043718345380

Product Code: 1552360

R1,045

Maximum operational reliability: The lockable C13 plug prevents accidental disconnection and ensures a permanently stable connection.

Space-saving installation: The angled safety plug allows flexible cable routing even in confined spaces.

Robust construction: The sturdy sheathing and high-quality workmanship ensure a long service life – ideal for professional environments.

Universal compatibility: Suitable for all devices with a C14-type IEC socket – e.g., servers, monitors, IT equipment.

Reliable power supply: Ideal for applications with vibration loads or mobile setups thanks to mechanically secure hold.

The InLine® power cable connects an angled safety plug (CEE 7/7) with a lockable C13 IEC plug. The mechanical lock on the C13 plug ensures that the connection cannot be accidentally disconnected – ideal for installations subject to vibration, in mobile racks, or in hard-to-reach locations.

The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The angled design of the safety plug allows the cable to be laid optimally even in tight installation areas or directly behind cabinets and devices. The high-quality cable construction is designed for professional use and impresses with its durability and reliable power supply.
The power cable is suitable for many areas of application: Data centers, industry, event technology, laboratories, broadcast environments, and modern IT workstations all benefit equally from the secure connection technology and space-saving design.

Plug type A: CEE 7/7 safety plug (angled)
Plug type B: IEC C13 lockable
Color: Black
