

InLine 10101B rack accessory Shelf

Model: 10101B

Manufacturer: INLINE

EAN: 4043718347001

Product Code: 1552739

R903

Compact solution for limited space: Ideal for wall mounting in confined spaces, e.g., in equipment rooms or secondary distribution boards.

Sturdy metal construction: Made of 1.5 mm thick SPCC steel with a robust black powder coating (RAL9005).

Easy installation: Includes mounting kit with screws, dowels, and M6 cage nuts for secure fastening.

Suitable for 10" components: Suitable for patch panels, mini switches, or small network modules.

Extended depth of 15.2 cm: Provides more space for deeper network or control components.

The InLine® mini rack for wall mounting with 10" format, 1U height and a depth of 15.2 cm is the space-saving solution for small network or technical installations. It is particularly suitable for locations with limited space, such as small technical rooms, workshops or secondary distribution boards.

Made of 1.5 mm thick SPCC sheet steel and coated with black powder paint (RAL9005), the housing impresses with its stability and durability. Installation is quick and easy – the necessary accessories
