

InLine 10102A rack accessory Shelf

Model: 10102A

Manufacturer: INLINE

EAN: 4043718347018

Product Code: 1552740

R893

Space-saving solution with 2U: Ideal for wall mounting in confined spaces with additional installation space.

Sturdy metal construction: Made of 1.5 mm thick SPCC steel with a robust black powder coating (RAL9005).

Easy installation: Includes mounting kit with screws, dowels, and M6 cage nuts for secure fastening.

Optimized for 10" network devices: Offers space for two components such as patch panels, mini switches, or controllers.

Compact depth of 7.6 cm: Perfect for flat devices or installations with limited installation depth.

The InLine® mini rack for wall mounting in 10" format with 2U and a depth of 7.6 cm is ideal for compact network installations in confined spaces. The two height units offer additional mounting space for active or passive components without taking up much space.

The housing is made of 1.5 mm thick SPCC sheet steel and has a black powder coating (RAL9005). It impresses with its stability, durability, and ease of use. The necessary accessories for wall
