

InLine 55383 portable/party speaker Mono portable speaker Black

Model: 55383

Manufacturer: INLINE

EAN: 4043718348138

Product Code: 1552942

R1,121

Hands-free communication in everyday work:The integrated Bluetooth hands-free kit with microphone allows you to make phone calls and voice announcements while keeping both hands free and without interrupting your workflow.

Close-fitting speaker for clear intelligibility:The clip design keeps the speaker close to your ear at all times. Voice content, calls, and navigation instructions are clearly understandable without the need for high volume.

Reliable during movement and in changing environments:The ClipTone can be securely attached to clothing or equipment and supports mobile activities in the workshop, during assembly, or in outdoor use.

Robust construction with IPX7 protection class:The speaker is suitable for use in rain, splashing water, or humid working conditions and remains operational even under demanding conditions.

Listen together with two ClipTones: Both speakers play the same content from a Bluetooth source – playback is controlled via one ClipTone.

The InLine® ClipTone is a portable Bluetooth speaker with a clip, specially designed for mobile applications where freedom of movement, clarity, and reliability are paramount. Thanks to its body-worn design, the speaker is always within earshot and is particularly suitable for voice content, phone calls, and navigation instructions.

The integrated hands-free function with microphone allows for hands-free phone calls during everyday work. Discussions, queries, or short phone calls can be made without having to hold additional devices in your hand. This supports efficient work processes while allowing freedom of movement.

Thanks to its IPX7 protection class, the ClipTone can also be used in damp environments. Rain, splashing water, or high humidity do not affect its function. This makes the speaker suitable for use in workshops, during assembly work, or for mobile activities outdoors.

Another advantage is the ability to pair two ClipTones with one device at the same time. One of the speakers acts as the master and handles tasks such as answering calls. This allows audio content or phone calls to be played back simultaneously on both devices. Bluetooth 5.3 ensures stable connections and reliable transmission.

Driver: 4 ohms / 2 watts

Driver diameter: 28 mm

Frequency response: 180 Hz – 20 kHz

Range: 10 m

Battery life: up to 10 hours

Operating voltage: 3.7-4.2 V

Battery capacity: 600 mAh (3.7 V lithium-ion battery)

Charging port: USB-C

Charging specification (recommended power supply): 5 V / 1 A

Charging time: approx. 2 hours

Standby power consumption: 0.007mA ± 0.005mA

Auto standby time: 15min

Frequency band: 2402 – 2480MHz

Max. transmission power: 10dBm (EIRP)

Protection class: IPX7
