R846

Efficient organization: 9 compartments for clear sorting of small parts

Safe storage: Clip-on lid protects contents from falling out

Flexible design: Removable inner compartment for customization

Rugged and durable: Sturdy plastic construction for professional use

Practical size: Versatile application options

The InLine® small parts box is the ideal solution for professional users who require structured and secure storage of small parts. With 9 compartments, it offers sufficient space for screws, nuts, seals or other small parts that often need to be to hand in everyday working life. The clip-on lid ensures that the contents remain securely stowed away at all times, while the removable inner compartment

allows for flexible organization. Thanks to its compact design, the box fits easily into workshop
