connections where a Mini DisplayPort output needs to be connected to a standard DisplayPort cable or device. It is ideal for systems where a Mini DP output is used due to space constraints or device combinations, but a normal DP cable still needs to be connected.

The adapter supports resolutions up to 8K UHD and offers reliable transmission quality thanks to its gold-plated contacts – even with high graphics requirements. Its compact design makes it particularly suitable for confined installation situations or mobile locations.

A valuable accessory for system integrators, technicians and professional users who require flexible interface solutions.

Connection 1: DisplayPort socket

Connection 2: Mini DisplayPort plug

Standard: DisplayPort 1.4

Max. resolution: up to 8K UHD

Contacts: gold-plated

Application: socket to Mini DP plug, signal transmission

Design: compact
