InLine 19" rack for under-table mounting, 1U, black

Model: 19105A

Manufacturer: INLINE

EAN: 4043718319374

Product Code: 1553291

R977

Space-saving under-desk mounting: Enables the integration of 19-inch components directly under the work surface, creating a structured, professional installation environment without taking up additional space in the room.

Flexible height units: Available in 1U to 4U to accommodate different 19-inch devices and modules as required.

Sturdy construction: The high-quality workmanship ensures reliable support for installed components and supports permanent, secure fastening.

Open design for quick access: Components remain accessible at all times, which significantly simplifies maintenance, adjustments and expansions.

Mounting accessories included: Delivery includes M6 screw set, cage nuts, washers and fastening material for direct installation.

The InLine® 19-inch rack for under-table mounting offers an efficient solution for integrating 19-inch components into existing work environments. Mounting underneath the table surface makes optimal

use of available space. Additional storage space or separate server cabinets are not required.
The open design allows for quick installation and direct access to installed devices. This greatly facilitates maintenance work, adjustments or later expansions. The choice between 1U, 2U, 3U and 4U allows for flexible adaptation to individual installation requirements.
The sturdy construction ensures secure mounting of compatible 19-inch components. The supplied mounting hardware supports uncomplicated and structured installation.
The solution is particularly suitable where space-saving and professional integration of network technology or audio components is required.

Scope of delivery:

1x 19" rack for under-table mounting
4x M6 screws with wall plugs and washers
4x 6x25mm wood screws
M6 screw set, cage nuts, washers
