InLine Universal Tablet locking Stand for 7"-10.1" with key lock 1.5m

Model: 55726

Manufacturer: INLINE

EAN: 4043718219209

Product Code: 1553334

R1,759

Secure theft protection: The lockable mount with steel security cable reliably protects tablets from unauthorized access and theft.

Flexible alignment: The mount can be rotated and tilted, allowing tablets to be optimally positioned in both portrait and landscape format.

Sturdy metal construction: The sturdy metal base ensures a secure stand and can be screwed down if necessary.

Universal compatibility: Suitable for tablets with a diagonal of 7 to 10 inches and a case thickness of up to 11 mm.

Ideal for professional use: Perfect for presentations, checkout areas, trade fair stands, and reception areas with constant public traffic.

The InLine® Tablet Holder 55726 offers a reliable and professional solution for presenting tablets

securely and conveniently or for stationary use. The lockable design with integrated security cable lock effectively protects the device against theft and unauthorized removal. Thanks to its sturdy metal construction, the holder remains dimensionally stable and durable even with frequent use. The holder can be rotated and tilted flexibly so that the tablet can be used in both portrait and landscape format. The padded holder prevents scratches, while the sturdy base can be securely screwed in place if desired. This makes the holder ideal for use at trade fair stands, in sales rooms, or reception areas where a secure and attractive tablet presentation is required.
With universal compatibility for devices between 7 and 10 inches and a maximum case thickness of 11 mm, the InLine® Tablet Holder 55726 is versatile. The combination of functionality, security, and professional appearance makes it the ideal choice for companies that value a secure and flexible tablet solution.
