R1,155

Slim, Powerful and Travel Ready

The Verbatim Essentials Slim GaN Wall Charger 65W combines powerful USB-C charging with an exceptionally thin and lightweight design. Built with advanced GaN technology, it delivers up to 65W of fast charging power while remaining significantly smaller than traditional laptop chargers.

Whether you're commuting, working remotely or travelling internationally, this compact charger easily fits into a pocket, backpack or laptop bag without adding unnecessary bulk.

Fast Charging for Laptops, Tablets and Smartphones

Equipped with two USB-C Power Delivery 3.0 ports, this versatile charger is designed to keep your essential devices powered throughout the day. A single USB-C connection can deliver up to 65W, making it suitable for charging many modern USB-C laptops, including MacBook Air, Dell XPS and other compatible devices. When both ports are used simultaneously, intelligent power sharing provides up to 45W and 18W output, allowing you to charge a laptop and smartphone at the same time.

One Charger for Worldwide Travel

Designed as the ultimate travel charging solution, the Verbatim Essentials Slim GaN Charger includes an integrated foldable US plug along with interchangeable EU and UK plug adapters. Combined with universal 100-240V voltage compatibility, it works seamlessly in countries around the world without requiring additional travel adapters or voltage converters. Whether you're travelling for business or leisure, one charger is all you need to keep your devices powered wherever you go.
