Huanuo HNOFC48 Office Chair

The Huanuo HNOFC48 office chair is designed to ensure comfortable work at a desk and allow for personalized adjustment of the seating position. This model features 6D armrests, a 3D adjustable headrest, adjustable lumbar support, seat depth adjustment, and a 4-position backrest recline ranging from 95° to 123°. The breathable backrest and contoured seat made of high-density foam help maintain comfort during long hours of sitting, while the sturdy chrome base and a maximum weight capacity of approximately 150 kg ensure stable support.

6D Armrests - Wide Range of Adjustments

The 6D armrests can be adjusted not only for height but also for forward and backward extension, inward and outward position, tilt angle, and rotation. Such a wide range of motion makes it easy to find the right support for your forearms while typing, gaming, or resting. Proper armrest positioning helps reduce unnecessary tension in the arms and shoulders, especially during long periods of desk

work.

Seat and Backrest Adjustment

The Huanuo HNOFC48 allows you to adjust the seat depth, so you can better tailor its position to your height and leg length. The adjustable lumbar support, in turn, helps properly support the lower back, while the 3D headrest allows you to adjust the support for your head and neck. The chair’s design can reduce pressure on the hip area by 20%, while ensuring better distribution of body support.

Backrest recline angle from 95° to 123°

The four-point recline mechanism allows you to adjust the backrest within a range of 95–123° and lock it in one of four positions. A more upright position is ideal for work requiring concentration, while a greater recline allows for a more relaxed posture during breaks or rest periods. The ability to adjust the angle means you don’t have to stay in one position all day, which enhances the chair’s functionality both while working and when using the computer after hours.

Manufacturer	Huanuo
Model	HNOFC48
Product Type	ergonomic office chair
Maximum Weight Capacity	approx. 150 kg
Backrest Tilt Range	95°–123°
Number of backrest lock positions 4
