R8,855

Unlock your productivity's limitless potential with the RICOH Portable Monitor Series. The portable monitors are light, sharp, and versatile options for those on the go or looking to extend their precious screen real estate. Whether it's for work or play, the RICOH Portable Monitor Series expands what is possible.

The mains-powered RICOH Portable Monitor 150 can be easily handed to customers or colleagues for a more personal, engaging sharing meeting experience.

The generous high-quality, high-contrast OLED screen delivers vivid images, making content easier to consume, review and create. The touchscreen (with optional stylus) enables the user to highlight, directly draw on or annotate content, delivering instant capture of feedback and fast, efficient communication of thoughts and ideas. Portable monitor convenience also makes the RICOH Portable

Monitor 150 an ideal second screen for busy users on-the-go because it's easy to carry, set up and

use in small spaces or when traveling.

The powerfully portable RICOH Portable Monitor 150 provides an accessible second screen experience that's easy to carry, set up and use anytime, anywhere. At just 560g, it's ultra-lightweight for such a large, high-quality, high-contrast 15.6-inch OLED panel.

This Portable Monitor offers value for both one-to-one meetings or larger groups, and for face-to-face or hybrid meeting formats, whether in or out of the office. Using the 10-point multi-touch touchscreen (with or without stylus), users can work collaboratively, quickly and clearly by highlighting text and graphics on shared content. And it's all backed by the reassurance of quality, performance, and reliability of a trusted technology brand.
