

APC Easy Rack PDU, Metered Outlet, 0U, 1 Phase, 7.4kW, 230V, 32A, (20) C13 and (4) C19 outlets, IEC60309 2P+E inlet

Model: EPDU2132MBO

Manufacturer: APC

EAN: 731304733416

Product Code: 1556562

R26,978

Easy Metered-by-outlet rack PDU EPDU2132MBO provides detailed energy analysis for individual outlets, enabling better capacity planning and resource allocation. The Network Management Card NMC3 provides enhanced cybersecurity with secured interfaces and modified password policy. The rack PDU integrates with EcoStruxure IT through a Network Management Card (NMC3) and can be accessed and configured via Web, SNMP, and Command Line Interface. EPDU2132MB is designed for single phase applications of upto 7.4kw and industry standards of 1% metering accuracy. This comes

with IEC 603093 32A 2P+E type inlet, Twenty IEC C13 and four IEC C19 type outlet sockets. It features an ultra-lightweight aluminum housing, offering up to 50% weight reduction, along with environmental monitoring and an all-new improved display module. Vertical mounting capabilities allow users to mount the units in a rack or enclosure in zero U space without expending valuable rack space This is designed to operate within a temperature range of -5°C to +50°C and is backed by a standard 2-year warranty. The rack PDU supports daisy-chain of up to 4 PDUs on a single IP address, thereby reducing networking cost. Environmental monitoring ports for external temperature/humidity monitoring is available (sensor sold separately).
