Tool-Free Height-Adjustable TV Wall Mount - Move Your Display up or down by Hand without Motor or Crank

Designed for flexibility and ease of use, this Manhattan TV wall mount with integrated Lift & Lock height adjustment offers a practical solution for environments where display positioning needs to adapt quickly. Supporting large 55 inch to 75 inch screens, it combines robust construction with smooth, manual operation - no power source, crank, or tools required.

Effortless Height Adjustment Without Tools

Adjust your display exactly where you need it - simply move it up or down by hand. The intuitive Lift & Lock mechanism enables smooth vertical positioning across a generous 400 mm (15.7 in.) range, making it easy to accommodate different users or viewing scenarios in seconds. Built-in tension adjustment ensures optimal balance based on your display's weight, delivering controlled and reliable movement every time.

Ideal for Touchscreens and Interactive Environments

Whether in classrooms, training facilities, or healthcare settings, this mount is perfectly suited for interactive flat panels and touchscreen displays. Its user-friendly adjustability makes it easy to switch between seated and standing positions, supporting accessibility and collaboration in dynamic, multi-user environments such as schools, digital signage installations, simulation rooms, and labs.

Clean, Low-Profile Design

With its compact construction, the mount can be fully concealed behind the display at certain heights, creating a clean and uncluttered appearance. Extending just 96 mm (3.8 inches) from the wall, it maintains a sleek, professional look that integrates seamlessly into modern interiors.

Built for Strength and Reliability

Engineered for demanding applications, this wall mount supports displays from 35 to 65 kg (77 to 143 lbs.). Its heavy-duty steel construction with durable powder coating ensures long-lasting performance, even in high-traffic commercial environments.
