

InLine 31654 USB cable 0.2 m USB C Red

Model: 31654

Manufacturer: INLINE

EAN: 4043718346608

Product Code: 1557983

R862

Reliable protection against data access:The data lines are physically separated – data transfer via USB-C is impossible.

Flexible cable solution:0.2 m length allows for easy handling in tight installation situations or on the go.

Universally applicable:Compatible with all devices with a USB-C connection, regardless of the operating system.

Powerful and secure:Supports fast charging up to 240W via USB Power Delivery – without any data connection.

Robust for mobile use:Ideal for professional applications in companies, educational institutions, or public areas.

The InLine® USB data blocker as an adapter cable with USB-C plug and USB-C socket offers the same security as a classic data blocker – with additional flexibility. The data lines are physically separated so that only the charging function remains. Data transfer via the USB-C connection is not possible. This makes the cable ideal for secure charging at public USB ports, in professional

environments, or on the go.

Compared to rigid adapters, the 0.2 m long cable is easier to handle, especially in tight or hard-to-reach areas – e.g. in built-in housings, conference tables or service stations. The flexible connection also reduces mechanical stress on the device's USB port, which extends its service life.

The adapter cable is compatible with all devices that have a USB-C port, regardless of manufacturer or platform. At the same time, it supports charging power of up to 240W via USB Power Delivery.

This makes it the ideal solution for professional use where both data security and reliable charging are required.

Connector 1: USB-C plug

Connector 2: USB-C socket

Cable length: 0.2 m

Data connection: not connected (charging only)

Power: up to 240W (USB Power Delivery)

Area of application: data security, charging function, flexible integration
