InLine DC cable with Switch, DC male/female 5,5x2,5mm, AWG 18, black, 0.20m

Model: 26906G

Manufacturer: INLINE

EAN: 4043718331543

Product Code: 1558055

R828

Efficient current control thanks to integrated switch

High-quality copper conductors (AWG 18) for optimum conductivity

Universal compatibility with common DC hollow plug devices

Compact length of 20 cm to avoid cable clutter

Robust workmanship for professional use

The InLine® DC extension cable with switch is the ideal addition for professional applications that require targeted control of the power supply. Energy efficiency plays a particularly important role in system houses, IT infrastructures or industrial applications. The integrated switch allows the power supply to be selectively interrupted, minimizing standby losses and optimizing energy consumption.

With an inner conductor made of AWG 18 copper, the cable ensures reliable signal and power transmission. The DC plug and socket with 5.5x2.5mm dimensions are compatible with many devices, including LED systems, network technology, surveillance cameras or professional audio and video components. The compact length of just 20 cm enables space-saving installation without creating unnecessary cable clutter.

Inner conductor: copper AWG 18
DC plug/socket: 5.5x2.5mm
Maximum load capacity: 12V/11.6A (140W)
Color: black
Cable length: 0.20m
