InLine Micro USB 2.0 Cable USB Type A male / Micro-B male, black, 0.5m

Model: 31705

Manufacturer: INLINE

EAN: 4043718090501

Product Code: 1558595

R766

High compatibility for mobile devices: Ideal for smartphones, tablets, power banks, and cameras with a micro-USB port.

Stable data transfer up to 480 Mb/s: Reliable performance for data transfer and charging thanks to the USB 2.0 standard.

Robust construction for continuous use: Overall braiding and foil shielding as well as gold-plated contact pins ensure high durability even with frequent use.

Flexible application options thanks to different cable lengths: Ideal for individual requirements in everyday life and for technical equipment.

Durable materials for maximum reliability: High-quality workmanship ensures a secure connection even with repeated plugging and unplugging.

The InLine® Micro-USB 2.0 cable with USB-A plug to Micro-B plug offers a powerful and reliable solution for connecting smartphones, tablets, power banks, and other mobile devices. Thanks to the USB 2.0 standard, the cable enables fast data transfers at up to 480 Mb/s and efficient charging of your devices.

There are two different designs. The rectangular Micro-A connector (for the host side) is less common. In addition to the uniform USB-C charging standard, the Micro-B connector with its trapezoidal design (device side) is still widely used and installed in many older devices.

The robust construction with overall braiding and foil shielding as well as gold-plated contact pins ensures long-lasting performance—even with frequent use. Different cable lengths allow for flexible use, adapted to various areas of application such as the workplace, household, or mobile applications.

Standard: USB 2.0

Connectors: USB-A plug to Micro-B plug

Construction: 2x AWG24 + 2x AWG26 wires

Shielding: Overall braid and foil shielding

Contact material: Gold-plated contact pins, nickel-plated clamp

Maximum data transfer rate: Up to 480 Mb/s

Packaging: In PE bag with EAN code
